

# FUEL FLUSHING CHECKLIST AND DECLARATION

Operator (airline) approval **is required** to carry a liquid fuel camping stove or internal combustion engine with a fuel container. To request an approval, this form must be completed and presented at Airnorth check in.

I (*print name*) \_\_\_\_\_ confirm that I have followed one of the listed options to ensure the camping stove or internal combustion engine with fuel container is safe for air travel in checked baggage.

## OPTIONS:

### 1. New

- I declare the liquid fuel camping stove (including mantle/wick) or internal combustion engine and fuel container are new, unused and a recent purchase receipt is attached or can be emailed

## WHEN DECLARING OPTIONS 2 OR 3, ALL STEPS MUST BE COMPLETED.

### 2. Used (all fuel must be removed)

1. I have drained (for at least one hour) all flammable liquids from the camping stove (removed mantle/wick) or engine and fuel container; **and**
2. I have allowed the camping stove or engine and fuel container to be open to the air to ventilate for at least six hours; **and**
3. I have wrapped the camping stove (new & unused mantle/wick) or engine and fuel container in absorbent material such as paper towel and placed them in a polyethylene or equivalent bag; **and**
4. I have sealed the top of the bag with an elastic band, string or equivalent.

### 3. Used (all fuel must be removed)

1. I have drained all flammable liquids from the camping stove (removed the mantle/wick) or engine and fuel container then flushed the fuel container with a vegetable cooking oil or an equivalent product; **and**
2. I have wrapped the camping stove (new & unused mantle/wick) or engine and fuel container in absorbent material such as paper towel and placed them in a polyethylene or equivalent bag; and
3. I have sealed the top of the bag with an elastic band, string or equivalent.

**ANY SMELL OF FUEL WILL RESULT IN THE ITEM BEING DENIED CARRIAGE, NON COMPLIANCE IS A SERIOUS OFFENCE AND PENALTIES MAY APPLY.**

This form must:

- Not be signed unless you have complied with either options 1,2 or 3
- Be carried when travelling with the camping stove, engine or fuel container.
