

FIREARM AND OTHER ADVENTURE RELATED SPORTING EQUIPMENT CHECKLIST

In order for Airnorth to accept your item(s), the following criteria must be met:

Firearms and Ammunition

- Passengers checking in a firearm or ammunition must be able to provide a valid firearm license/permit
- Rifles must have the bolt removed and packed separately from the firearm, or if the bolt cannot be removed, a trigger lock must be applied
- Firearms must be unloaded and suitably packaged in customised locked cases. Luggage must be locked with a combination lock or key lock mechanism.
- Ammunition must be packed separately and in the original manufacturers packing (or better) so as to protect against shock, secured against movement and unable to trigger accidentally under conditions of manual handling. Separate packages can be enclosed in one suitcase. For example, one handgun and one box of ammunition.
- Ammunition must not exceed 5 kilograms total in weight
- There must be no indication on the luggage to identify its contents
- All ammunition, firearms and firearm parts, including firearm frames, receivers, clips and magazines are prohibited in carry-on baggage

Adventure Related Sporting Equipment

- Archery sets and spear guns must be unloaded. Arrows/spears packed separately can be enclosed in one package
- Spears, javelins or similar must have the sharp protruding implements covered so as to not come into contact with other baggage or cause harm to employees
- Luggage containing weapons must be locked with a combination lock or key lock mechanism

Firearms will be labelled as "DELIVER TO BAGGAGE SERVICES."

On arrival, please collect your item from the Ground Staff upon presentation of your identification.
